

CUMBERLAND

Highly refined, uniquely faceted

Clover Collection Guest Chair

beautiful objects that work

Clover Collection Guest Chair
Designed by 5d Studio

The refined design of the Clover chair features faceted upholstery, marking the front edge of the seat. Variations on the base and form assure that there's an appropriate version for every environment and application. Base options range from very contemporary four legs to a 5-star base with casters and tilt tension. And as part of a collection, Clover pieces can carry a thread of design continuity throughout a space that contains different functional environments.

The wood-base option brings together the crafts of woodworking and upholstery, highlighting Cumberland's excellence in both.

With arms and the 5-star caster base, the Clover chair is refined and hospitable.

Specifications

Available with or without arms, the Clover Guest Chair is constructed of multi-density polyurethane foam. There are four base options: a solid wood 4-leg base; a tubular 4-leg stainless steel base; a stainless steel column, non-return swivel X-base; or a polished aluminum 5-star caster base with adjustable height, swivel, and tilt up to 16 degrees with a tension knob.

Options

- Upholstery: COM/COL, Graded Fabric, and Elmo Leather program
- Contrast: The seat can be specified in a different fabric than the remainder of the chair.
- Wood: Maple is standard; Walnut is also available.
- Finishes: Available in any standard MP finish on Maple or any premium WL finish on Walnut; custom finishes are also available.
- Metal Base: Polished or Satin Stainless Steel is standard; Statuary Bronze is also available.
- Caster Base: Available only in Polished Aluminum.
