Elle Collection

The language of line and surface

**Elle Bench and Ottoman**  
 Designed by Cory Grosser

The continuous line of the Elle Collection was inspired by the motion and energy of skateboarding. The geometry is softened, offering in this bench and ottoman a counterpoint of comfort for any environment.

The top and base of the Elle bench form a continuous line

Top upholstery wraps two sides of the ottoman; the bottom appears to rise to enclose the other two

A welt accentuates the curvilinear lines of the upholstery

**Specifications**

A fully upholstered seat cushion is affixed to stainless steel legs for a bench available in three lengths. The top and sides are upholstered in one material (which the welt matches); the ends can be upholstered in another.

The ottoman, available in two sizes, is fully upholstered: the top and sides are one material (which the welt matches) and the ends can be upholstered in another. The seat is 4-inch-thick multi-density polyurethane foam. Gliding casters are standard.

**Options:**

- Upholstery: COM/COL, Fabric, and Elmo Leather Program
- Contrast: The ends of the piece can be specified in a different material from the top and sides
- Metal (bench only): Polished or Stainless Steel. Statuary Bronze is also available
