beautiful objects that work

Modo Collection Tantus Desk

Functional elegance in form and detailing

Cumberland Modo Collection
Tantus Desk
 Designed by Gary Lee Partners

The design of the Tantus desk distills function to its essence. Its large scale provides ample surface area for work. The thoughtful addition of sliding top panels incorporates technology and conceals cords and wires. In contrast to its straightforward function, the Tantus desk appeals to the senses with elegant detailing at the corner connection and a wide selection of wood species.

Elegant detailing at corner connection

Sliding panel for access to outlets and ports

Specifications

Table desk is available in 2 sizes. It comes standard with a pencil drawer. Powered desk includes sliding panels that provide access to 1 voice/data port and 1 electrical outlet on each side of the desktop, a 10' power cord and wire access through the leg panel. Leg panel can be centered over a floor monument for direct power entry into the leg panel or power connections can be positioned inside the leg panels. Hard wiring with 6' flexible conduit is available for power /data port to meet local code requirements.

Options

Wood: Maple, Ash, Cherry, Walnut or Mahogany or Option A Exotic woods are available at an additional charge
 Finishes: Standard and custom finishes; Cerused finishes are available on Ash at an additional charge
