

# CUMBERLAND

Fresh forms for flexibility

Current Stool

*Beautiful objects that work effortlessly together—anywhere.*

**Current Stool**

*Designed by David MocarSKI*

Current stools are visually lightweight and highly movable. The seat is contoured for varied sitting postures; it is wide enough to tuck folders or a tablet nearby. The seat sits atop a streamlined and durable solid hardwood base or stainless steel frame. And the stool is part of the Slide Collection, which offers the flexibility and function to support the way we work now.

Sculptural wood bases bring warmth and visual comfort to spaces

Upholstered in textiles or leather, the seat supports casual and varied postures

**Specifications**

The Current stool has an upholstered seat with a rigid polyurethane core affixed to a frame constructed of solid stainless steel or a hardwood base with a stainless steel footrest. Bases rest on nylon glides.

**Options**

- Upholstery: COM/COL, Fabric, and Elmo Leather program
- Metal Base: Polished or Satin Stainless Steel is standard. Painted Metal, Polished Brass and Statuary Bronze are also available
- Wood Base: Maple is standard. Walnut and White Oak are also available
